Dear John Pienkos,

Thousands of inventors call us every month. Many are seeking a patent attorney, and we would like to refer some to you. If you're interested, we would like to speak with you.

In the meantime, perhaps you would like to refer some of your clients to us. Inventors Publishing & Research (IP&R) helps inventors with a patent (or pending patent) commercialize their inventions. Some we license to manufacturers; others we license ourselves, and sell directly to retailers.

Over the years, we've licensed scores of inventions and our royalty rates are double the national average. Last month, we licensed three inventions to a single manufacturer (which you can read about in the attached Forbes article). Now, major companies are licensing and buying patents from us. For example, we recently licensed an inventor's patent to Fellowes, and not long ago we sold another inventor's patent to Symbol Technologies (for \$180,000).

We've also been successful launching products that we've licensed in-house. We're a vendor for major retailers, like Wal-Mart, Bed Bath & Beyond, and QVC. Winn Dixie, a 500-store chain, just ordered 20,000 units of one of our new inventions. And in the last few months, we've sold three very different inventions on QVC (the leading home shopping channel). They've ordered seven more of our inventions which will air soon.

We offer patent holders everything they need to succeed — research, brochures, animations, videos, prototypes, industrial design, engineering, packaging and more. We also have a large team of licensing professionals that presents inventions to manufacturers and retailers. We don't wait for manufacturers to come to us. We attend every major tradeshow and meet decision makers in their offices.

We cover a broad range of categories, from consumer and industrial products to life and physical sciences. Our team of 150 professionals includes experts in every area.

If you have clients who could benefit from our help, or you're seeking more clients for your practice, call us today at 1-877-585-6345.
